

<b>GRADUATE THESIS</b>	
<b>GENERAL INFORMATION</b>	
Course coordinator	Teachers in teaching and research position at integrated undergraduate and graduate studies
Assistant/Associate	-
Study Programme	Integrated undergraduate and graduate university study of Medicine
Status of the course	Mandatory
Year of study, semester	6 <sup>th</sup> year, 12 <sup>th</sup> semester
ECTS	<b>4</b>
Workload (hours)	Seminars (120)
Expected number of students	70
<b>COURSE DESCRIPTION</b>	
<b>Course objectives</b>	
The goal of the course is to acquire the ability to analyze and solve the given problem from a theoretical and practical point of view by creating a thesis through independent work.	
<b>Enrolment requirements and entry competencies</b>	
-	
<b>Learning outcomes at the Programme level</b>	
<b>1.1., 1.2., 2.1., 2.2., 2.3., 3.1., 3.2., 3.3., 3.4., 3.5., 4.1., 4.2.</b>	
<b>Learning outcomes (5-10)</b>	
After attending lectures, completing seminars and exercises, independent study and passing the exam, students will:	
<ol style="list-style-type: none"> <li>1. Relate the knowledge and skills acquired during studies, and develop the ability for additional learning from relevant literature with mentor advice</li> <li>2. Independently conduct experiments and analyze and interpret the obtained results</li> <li>3. Choose, argue and justify the proposed solution</li> <li>4. Formulate and write a thesis in accordance with the instructions and draw conclusions in a linguistically and ethically correct manner</li> <li>5. Publicly present the obtained results using a presentation prepared on the computer with a twenty-minute oral presentation.</li> </ol>	
<b>Course content</b>	
Writing the graduation thesis	
<b>Mode of teaching</b>	
-	
<b>Student obligations</b>	
Complete all the defined tasks of the thesis. A student whose thesis has been positively evaluated by the mentor presents his work to the Commission of the graduation thesis.	
<b>Monitoring student work (<i>alignment of learning outcomes, teaching methods, and grading</i>)</b>	
The student independently prepares the experimental part of the work and, with the help of relevant scientific literature and suggestions from the mentor, presents the solution to the given problem in written form, all by applying the knowledge acquired from the subjects he passed during his graduate studies. At the end, the student presents his work in written and oral form.	
<b>Required reading (available in the library and through other media)</b>	

Title	Number of copies in the library	Availability through other media
In accordance with the topic of the thesis		
<b>Additional reading</b>		
-
